LAMONT BROS. DESIGN & CONSTRUCTION ANNOUNCES NEW COMMUNITY GIVEBACK PROGRAM

Portland-based residential remodeling firm to change a Portland family's life by renovating their kitchen for \$1.

PORTLAND, OR, July 20, 2024 — Lamont Bros. Design & Construction is excited to announce the launch of their new Giveback Program by remodeling a local homeowner's home for \$1.

The first project in this program is set to begin in July 2024 for Bob and Betsy Ullrich, who began a kitchen remodel in 2022 but experienced a major medical event that made it impossible for them to complete the project. Lamont Bros. is partnering with several generous vendors who have donated labor and materials to help bring their kitchen back to life.

The public is invited to participate in the Giveback Program by nominating members of our community who have a need for vital home improvement projects they can't afford. Those interested are also invited to follow along with videos on the Lamont Bros. social media and YouTube channel.

Local businesses and service providers can participate by donating labor or materials to future projects. Lamont Bros. allocates a portion of company profits to fund this program each year and is looking for nominations for future projects.

For more information, to follow along with the video series, or to learn how you can get involved, please visit <https://lamontbros.com/giveback> or contact Michael McCormic at 503-732-9484
